**Steel Dump Hoppers** are a low cost method to collect, store and transport bulk materials.

Forklift operator can effectively transport bulk materials by sliding forks into fork pockets.

Once material is in desired location, simply release safety latch and hopper will tilt forward and dump. When unloaded, **steel dump hopper** will automatically return to its locked position.

Each **steel hopper** is constructed out of 3/16" plate continuously MIG welded and re-enforced with angle throughout. All edges are rounded smooth for safety. Exclusive 5/8" rocker gear with 1" flame cut "S" stop. Features no pins or rivets to work loose.

Sizes range from 1/4cu.yd. to 5cu.yd. With option such as casters and enclosed fork pockets, you can customize these hoppers to suit your needs.

### Features:

- Structural steel base
- 11 gauge body
- 2.75" fork clearance
- Latch to lock or dump
- Painted bright yellow
- All welded construction

| MODEL      | OUTSIDE DIMENSIONS<br>(L x W x H) | VOLUME<br>(CU. YD) | CAPACITY<br>(LBS) | WEIGHT<br>(LBS) | PRICE     |
|------------|-----------------------------------|--------------------|-------------------|-----------------|-----------|
| SDH-1      | 54" x 33.5" x 31.5"               | 0.5                | 2,000             | 335             | \$625.00  |
