Carousel is shown with rings separated to illustrate bearings

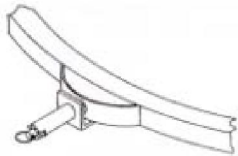

Carousel rotates materials 360 degrees with the assistance of an operator. Loading and unloading operations can be done more efficiently with less fatigue and risk of back injury.

- May be added to an existing work bench, scissor table or simply placed on the floor.
 - Constructed from two pieces of rolled structural angle.
 - Series of roller bearings transfer the load smoothly and evenly to the supporting surface.
 - Four guide rollers keep the rings aligned.
- The overall height of the carousel is only 2.25"

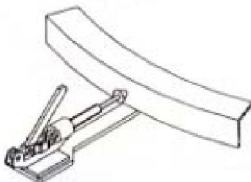

Carousels					
Model	Price	Outer Diameter	Height	Capacity (lbs)	Net Weight (lbs)
CA-18-2	\$284.00	18" Diameter	2"	2,000	20
